PUBLIC HEALTH DEPARTMENT,

D A R W E N.

JULY, 1941.

Ladies and Gentlemen,

I have pleasure in presenting to you a report on the work of the Public Health Department for the year 1940. In accordance with the instructions of the Ministry of Health, the report is abbreviated.

I wish to record my appreciation of the consideration and support shown me by the Chairman and members of the Health Committee, and my appreciation of the work of the staff of the department without whose willingness to undertake additional duties and to work abnormal hours, the functions of the department would have been gravely affected.

I am, Ladies and Gentlemen,

Your obedient servant,

SECTION 3.

Maternity & Child Welfare.

Ante and Post-Natal Clinics. - In September 1939, Mr. Potter, Consultant Obstetrician to the district, left for Military Service. Consultant Clinics lapsed, but increased work was taken over by the Medical Officer of Health's Clinic. Practitioners requiring assistance in the delivery of Patients may call in other consultants whose fees are covered by the Local Authority.

115 Clinics were held by the Medical Officer at which 256 women made 875 attendances.

There is no ad hoc Post-Natal Clinic but 25 women were seen as to post-natal conditions by the Medical Officer of Health.

Supervision of Midwives. A prosecution of a Midwife before the Central Midwives' Board was undertaken by the Local Authority in January 1940.

The charges were based on failure to call in medical aid in a case of Ophthalmia Neonatorum and failure to send a notification of exposure to infection in relation to the same child.

The Board found the charges proved and suspended the Midwife from practice directing her to undergo a course of instruction and if a satisfactory report on same was received she would be permitted to resume practice. The report was not entirely satisfactory and the Board decided to allow her to resume if the Local Authority would undertake close supervision of her work. The Authority declined to agree to this course and after some correspondence the Board of its own motion allowed her to practice. This case has been referred to in the report for 1939.

In addition a large number of special visits were made for various purposes.

CHILD LIFE PROTECTION.

One person was proceeded against under Section 206 of the Public Health Act, 1936. A conviction was obtained and the defendant was ordered to pay costs.

Public notices have been issued reminding the public of their responsibilities respecting the registration of themselves and of children when nursed out for reward.

Mr. J. C. Almond, Senior Sanitary Inspector and Director of Public Cleansing, submits in Sections 4, 5, & 6, a summary of the work done by the Inspectorial Staff, and the Public Cleansing Department:-

SECTION 4.
Sanitary Circumstances of the Area.

Water Supply.

The use of a private water supply at a Farm has been discontinued owing to surface pollution and town's water has to be laid on. No further progress has been made with regard to provision of town's water at two houses reported upon in the 1938 report.

Samples of water were taken during the year, 11 for bacteriological examination and 14 for chemical analysis. Nine were taken from public supplies and proved satisfactory. Five samples from private supplies were satisfactory except that in one case the lead content was found to be slightly higher than that generally regarded as harmless. Advice was offered to the occupier of the house.

Public Cleansing. - An endeavour has been made to maintain collections of house refuse as normal as possible despite depleted and changing staff. A Salvage Service has been put into operation as a result of which waste paper, scrap metal and kitchen waste have been made available to assist the War Effort. A Licence to boil pig food has been obtained from the Ministry of Agriculture and Fisheries and the plant complies with the latest Order respecting boiling of Animal Foodstuffs.

Shops Act, 1934 - Routine visits and inspections were made.

Swimming Baths and Pools - The water of the Town's Public Swimming Baths was examined bacteriologically during the year. The results were satisfactory.

Eradication of Bed Bugs. - Premises found to be infested have been dealt with by the use of Hydrogen Cyanide or other Gaseous method. The fumigation by Cyanide was undertaken by Contractors.

Offensive Trades - There are five premises in the Borough occupied by such trades. These were kept under supervision.

Factories Act, 1937 - The provisions of the Act, so far as they concern the Public Health Department, were applied. The administration of the Act was satisfactory. Wherever possible, the Department co-operated with H. M. Inspectors of Factories.

SECTION 5.
